

INTRODUCING CENTERVIEW TRAINING

ENHANCED

We are pleased to offer the Corda Training Enhanced course. Corda and our Dashboard Technologists provide distance-enhanced training, experience and insight with Corda, our products and data visualization best practices. Built atop Corda's Quick-Start course, CenterView Training Enhanced benefits include:

- **Virtual classroom training and web-based meetings**
 - A combination of pre-recorded, web-based presentations and scheduled web-based classroom sessions, giving you unique access to worldclass developers and data visualization experts while affording more flexibility to learn on your schedule, and at your own pace.
 - An optional "add-on" face-to-face training session at your location or ours.
- **Learn stylistic designs & industry best visualization techniques**
 - Learn how to effectively design dashboards through a study of data visualization theory, industry best practices, case studies, and tips & tricks from the experts.
 - Learn best practices and thought leadership with KPI selection, bridging the gap from strategy to execution.
- **Classroom forums and instructor accessibility**
 - Send emails directly to the instructor for questions and how-to's.
 - Log-in to the Corda Connection Portal to post questions, read forum discussions relating to Corda Training Enhanced, read Q&A postings, and chat with other Corda Training Enhanced students.
- **Prototyping Benefits**
 - Start working immediately on your own projects and dashboards: identifying metrics, key performance indicators (KPIs), and the actual design and implementation of your own dashboard.
- **Integrated readings from industry leaders**
 - Learn from industry experts in dashboard design and data visualization techniques and methodologies, including Stephen Few, Wayne Eckerson and others.
- **CenterView Training Enhanced certification exam**
 - Corda Training Enhanced exam on the CenterView products lets you and others know you have the skills to create effective dashboards and other data visualization solutions.
- **More intensive labs and hands-on exercises**
 - In-depth technical exercises and training.
 - Work in group projects with classmates around the world.
